

BMTbase[™]
REGISTRY REPORTING ANALYSIS SOFTWARE

Blood & Marrow Transplant Registry Reporting Analysis Software

Analyze Every BMT Registry Report

Your Complete Blood & Marrow Transplant Registry Reporting Analysis Software Solution

BMTbase™ allows you to analyze every BMT registry report to help shape the future of your program.

CIBMTR & NMDP Registry Data Download

BMTbase™ allows you to automatically download your completed Stem Cell Therapeutic Outcome Reports directly from FormsNet™ to your local database. BMTbase™ eliminates duplicate data entry and provides you with a record of every form submitted for further review and statistical analysis.

Integrated Statistical Analysis

Use BMTbase™ to generate user-defined statistical analysis from your submitted FormsNet™ data including Kaplan Meier Survival Curves, Cross-Tabulations, and Frequency Analyses. View your results onscreen or output all your data to Excel.

Bring your analyses to a new level by analyzing your FormsNet™ data and your historical BMTbase™ data together.

Save Time

→ **Retrieve Data.** BMTbase™ makes it easy for you to schedule daily downloads of your submitted FormsNet™ data to use for your program's analysis.

→ **ASBMT RFIs.** Generate the ASBMT RFI form for insurance reporting directly from your BMTbase™ data at the click of a button.

Save Money

→ **Web-based.** Easy to deploy and maintain, BMTbase™ provides you with all the analytical tools you need in an easy to use design.

Get Answers

→ **Statistical analysis.** Pull out detailed statistical analyses on all your current and historical registry reporting data quickly, easily, and in the format you want.

“BMTbase™ saves us countless hours in paperwork.”

Generate ASBMT RFI Forms

Automatically generate the ASBMT Request for Information (RFI) forms from BMTbase™ at the click of a button.

Web-based Deployment

A web-based deployment will allow you to analyze your data from anywhere in your facility. It's intuitive web-based design makes BMTbase™ easy to deploy and maintain on your intranet.
